About us:

Tata Group is an Indian multinational conglomerate holding company headquartered in Mumbai, Maharashtra, India. Founded in 1868 by Jamsetji Tata, the company gained international recognition after purchasing several global companies. One of India's largest conglomerates, Tata Group is owned by Tata Sons.

Environments:

Tata group companies are strongly driven by international benchmarks for sustainable practices in business. But a greater portion of what the group does in this sphere is by choice and conviction. From this flows its support for endeavors to conserve plant and animal species, improve land and water use, and protect forest tracts and green sanctuaries.
